Art Unit: 1644

1. The rejection of claims 44,48-53,55 under 35 U.S.C. 1 12, first paragraph, as containing subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention for the reasons elaborated in the previous Office action is withdrawn in view of the Wilson declaration filed 8/6/2004.

2. This application is in condition for allowance except for the following formal matters.

a) In the previous Office Action, paragraph 7, applicant was asked to update the status of 08/446760 disclosed in the specification, page 1. The preliminary amendment filed 8/21/99 had already added a sentence claiming priority to said application. All that was needed was to add after "08/446760" that said application was "now abandoned". In the amendment filed 8/6/2004, the sentence "This application is a divisional application of US 08/446,760, which is abandoned." was added to the first page of the specification so that there are now two references to said priority claim. Applicant needs to delete this added reference and amend the original priority claim to indicate that 08/446760 is now abandoned.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
